Renault TWINGO

Design

The brief. “Design a car that smiles and makes you feel happy, with a cheerful, friendly face that brings back memories.”

Back to the roots. A pinch of R5 Turbo, a hint of First Generation Twingo, a touch of the Renault DNA. The Renault Twingo resembles its predecessors and is the stuff of dreams. It is a car of its time: current, smart, modular and connected.

Like the Renault family. Drawing on the marque’s emotional and sporting heritage, the designers re-interpreted selected iconic Renault features. The tailgate angle, sculpted sides, small round lights and rectangular headlights are all hints to past Renault cars.

"Best Answer to the City Car Dilemma"

2015 - City Car of the Year

Go anywhere Go everywhere

In the city, life moves fast and things can change quickly, so a truly excellent city car is one that is practical and versatile as well as small and agile. Whether you have passengers getting in the back, need to park in a tight space or even need to carry some flat pack furniture, Renault Twingo is in its element.

5 doors

Impressive turning circle

Split folding rear seats

Enough space for a flat-pack bookcase

No one had dared. Now Twingo has!

Space, storage and manoeuvrability. Putting the engine in the rear is something you normally associate with two-seater sports cars, not practical city superminis! However, doing this has given Renault Twingo features that make it stand out from the competition.

I've lost
10cm exterior length

I've gained
33cm interior length

I have an amazing
turning circle of
8.59 metres

The Twingo paradox. Since the last generation Renault Twingo has lost 10cm in length. However, at the same time the cabin is 33cm longer. This gives greater knee room for rear passengers.

Tight turns shouldn't be trouble. The Renault Twingo has an impressive turning circle of 8.59m. This makes parallel parking in tight spaces a lot easier.

What a view! By having a shorter bonnet and a raised driving position, Renault Twingo has excellent driver visibility which makes you feel more confident and enjoy the drive more.

Quiet, please! The engine at the back means it is further away from the driver, and therefore quieter: great for listening to your music (or your passenger!)

Plenty of room. Although you might think that putting the engine at the back would compromise space, you'd be surprised! There is no loading lip to the boot floor - so it's easy to lift items in and out of the boot - and the split folding rear seats fold flat with the boot, making the space practical. What's more, the front passenger seat folds down, giving 2.3m of load length! This means you could carry some flat pack furniture and still have a passenger in the back!

In addition to the impressive boot space, there are also little stowage spaces around the car for smaller items, such as rear door pockets*, space under the rear seats* and a storage space in front of the gear stick.

*Optional from the Play trim level.

TWINGO GT

New Renault Twingo GT: the car with a sporty attitude

Precise, comfortable and fun, the new Twingo GT will bring you sporty thrills stamped with the Renault Sport signature - its 110 hp turbo engine takes it from 0 to 62mph in less than ten seconds! With its 17" alloy wheels, lateral air intake and twin exhaust, the new Twingo GT cuts a fine figure. The interior is not to be outdone; its sporty pedigree shines through in its exclusive part leather upholstery, aluminium pedal unit and sport gear lever knob. Its driveability, handling, optional sporty roof decals and new optional Blaze Orange special i.d. metallic paint make it the new benchmark for small sporty city cars.

A sporty pedigree

Renault Sport's engineers have worked their magic to finely tune the GT's chassis. Stiffer shock absorbers, a thicker anti-roll bar, 20mm lower ride height, revised steering and Electronic Stability Control (ESC) allowing you to enjoy the full potential of the new Twingo GT in comfort. Its driving accuracy will put you at ease; its low body roll and communicative steering provide it with dynamic and reassuring handling.

Technology and innovation

R&GO

R&Go is an application that turns your smartphone into a touchscreen for your dashboard! The fitted universal smartphone cradle mounts your phone to the dashboard and the app presents the features in an intuitive menu with large buttons. The key features of the app are:

Navigation. 3D vehicle navigation provided by CoPilot (available through in-app purchase). Maps are downloaded onto the phone, so no data required for navigation. Find my car feature: phone automatically saves the location of your car and gives pedestrian navigation back to it!

Phone. Digital keypad, call history and contacts; phone calendar; SMS (messages) read out.*

Media. Select the input source for the stereo (including USB and AUX socket) and control the FM/AM/DAB radio, play music from the phone, access internet radio (uses phone's data).

Vehicle. Eco driving score, fuel consumption info, trip computer and rev counter available.

The R&GO application is free to download for compatible Android and iOS smartphones.†

*SMS feature only available on Android devices.

† For compatible devices, please refer to <https://www.renault.co.uk/services/multimedia/bluetooth-compatibility.html>

Optional R-Link

Integrated 7" touchscreen multimedia system (with navigation). In addition to its many built-in features shown below, there are also applications to download from the R-Link Store. You can control it from the screen, steering wheel controls or even voice command.

R-Link is available with the Techno Pack which also includes a reverse parking camera.

Android Auto™

Access your smartphone's apps for navigation, music, calling and messaging**

Touchscreen navigation system

Provided by TomTom® (36 months subscription to LIVE services from delivery).

Multimedia*

FM/AM/DAB tuner, connect devices via USB and AUX sockets or Bluetooth®.

Reverse parking camera system

Rear parking sensors with reverse parking camera, which displays the image on the navigation system screen alongside guidance aids.

Vehicle information

The fun "Eco Driving" coach gives you handy tips to improve your driving style and reduce your fuel consumption.

Voice control*

Set your destination, call a contact or launch an application with voice control.

*For compatible devices, please refer to <https://www.renault.co.uk/services/multimedia/bluetooth-compatibility.html>. **Available from August production. Compatible with Android phones running Android 5.0 (Lollipop) or later. Requires a USB cable certified by the smartphone maker. Applications compatible with driving: List of applications available on Android Auto. Connecting a smartphone to access Android Auto™ should only be done when the vehicle is safely parked. Drivers should only use the system when it is safe to do so and in compliance with the requirements of The Highway Code. Drivers should be aware of the potential of hands-free technology to distract a driver's attention from the road, preventing them from having full control of the vehicle.

Engines and gearboxes

SCe 70. Made for the city, this 70 hp petrol engine's torque is very responsive, for a drive which is simultaneously lively, flexible and comfortable. There is also a variant which includes Stop & Start for improved fuel economy and reduced CO₂ emissions.

ENERGY TCe 90 Stop & Start. For those out of town, the ENERGY TCe 90 turbo petrol engine with a manual gearbox is most at home. With more power (90 hp) and torque (135 Nm) it is very comfortable with brisk starts and nippy acceleration. With standard Stop & Start, your driving is fun and economical.

TCe 90 Auto EDC. For those in town, the TCe 90 turbo petrol engine with the automatic EDC gearbox perfectly combines the comfort of an automatic gearbox and the responsiveness of a manual transmission.

GT TCe 110 - exclusive power. The performance of the GT 110 engine, which is exclusive to the new Twingo GT, has benefited greatly from the work done by the teams at Renault Sport: modified engine mapping, higher turbo speed, and most noticeably, a re-designed exhaust system with twin silencer. Each component has been optimised, including the gear ratio of the manual 5-speed gearbox. In the end, the TWINGO GT makes for an energetic drive with effortless engine revving.

Safety for all

In active and passive safety, Renault's expertise has nothing left to prove. The care taken to make our cities and our roads safer regularly receives rewards.

Protection

Drive calmly. My architecture has been specially designed to absorb shocks; my front and side airbags protect you and your passengers.

Hill Start Assist (HSA)

Relax, I maintain the braking pressure automatically for 2 seconds... enough time for you to manoeuvre calmly.

Electronic Stability Control (ESC)

Difficult road conditions? Along with the anti-slip regulation (ASR), the ESC monitors your trajectory.

Optional lane departure warning

Drive relaxed: if you cross a continuous or broken line without indicating, you get a visual and audible warning.

*Official fuel consumption figures are produced for comparison purposes and are measured according to the European Regulation 692/2008 and may not reflect real life driving results. These figures are specific for a vehicle type and not for a single car. Real world fuel (actual) consumption can vary as the fuel efficiency of a vehicle is influenced by driving behaviour, weather and road conditions. The use of technical equipment for example air conditioning, can also effect the fuel consumption. For further information, please visit the Vehicle Certification Agency web site www.vca.gov.uk. Renault Services

3 Years Warranty

Your vehicle is covered by a warranty package for up to 3 years from date of first registration (unlimited mileage during the first 24 months, followed by a further 1 year limited to a total mileage of 60,000). Your Renault Dealer is able to repair or replace without charge, parts that are found to have a material or assembly defect that is recognised by Renault. The paintwork warranty runs for 3 years and the anti-corrosion warranty for 12 years.

For Warranty Terms and Conditions please visit www.renault.co.uk/warranty

3 Years Roadside Assistance

Should you need it, we'll provide emergency roadside repairs or tow you to the nearest Renault Dealer. This service is available 24 hours a day and is provided for 36 months from the date of first registration. Assistance is provided within the UK & Northern Ireland only at roadside, home and includes national recovery and onward travel. Renault Assistance applies to mechanical or electrical defects which are covered by warranty.
